BHAKTHI S

SOFTWARE ENGINEER (Full Stack Developer)

Bangalore, India | 8867143690 | bhakthis2002@gmail.com | LinkedIn: www.linkedin.com/in/bhakthi-s-993144277

PROFESSIONAL SUMMARY

Software Engineer 4 with experience in Spring Boot, Vert.x, Vue.js, PostgreSQL, and RabbitMQ. Strong in backend development, REST APIs, and financial systems. Recently worked on lease management backend with complex calculations and workflows.

TECHNICAL SKILLS

Languages: Java, JavaScript
Frontend: Vue.js, PrimeVue, HTML5, CSS3, Bootstrap
Backend: Spring Boot, Vert.x, J2EE, Servlets
Database: PostgreSQL, MySQL
API & Tools: REST APIs, Postman, Git, VS Code
Testing & Performance: JUnit, Mockito, JMeter, Jaeger
Messaging: RabbitMQ

WORK EXPERIENCE Software Engineer – Finoli Technology Pvt. Ltd., Bangalore (Mar 2025 – Present)

- Developed scalable fintech web applications using **Vert.x and Java** with microservice-based architecture, including **RESTful APIs**, optimized database queries, responsive UI with **Vue.js and PrimeVue**, and secure **authentication/authorization**.
- Integrated **RabbitMQ** for asynchronous event-driven communication and worked in **Agile sprints** to deliver production-ready features.
- Built backend services for a **lease accounting system** using **Spring Boot**, implementing lease lifecycle workflows such as **recognition, modification, and reversal**.
- Handled financial calculations, journal entry processing, date-based logic, and debugging of data inconsistencies, while improving code quality through **JUnit, Mockito, JMeter, and Jaeger**.

PROJECTS Event Management System

Technologies: J2EE, JSP, Servlets, JDBC, MySQL, Bootstrap
Developed an MVC-based event management system with role-based dashboards, enabling event creation, scheduling, and participant management.

EDUCATION Bachelor of Engineering

Dr. Ambedkar Institute of Technology, Bangalore | **2020 – 2024 | CGPA: 8.95**

CERTIFICATIONS Java Full Stack Development Certification (2024)
